

Arno Rauschenbeutel was born in Düsseldorf, Germany, 1971. During his Ph.D., he worked on cavity quantum electrodynamics with Rydberg atoms in the group of S. Haroche at Ecole Normale Supérieure, Paris, France, and obtained his Ph.D. degree from the Université Paris VI, France, in 2001. He was a senior scientist in the group of D. Meschede at the University of Bonn, Germany, a full professor at the University of Mainz, Germany, and is currently director and chair for applied quantum physics at the Atominstitut, TU Wien, Vienna, Austria. He is a founder member of the Vienna Center for Quantum Science and Technology. His research interests include experimental quantum optics, nanophotonics, hybrid quantum systems, optical nanofibers, and optical microresonators. Arno Rauschenbeutel received a Marie Curie Excellence Award (EC), a European Young Investigators Award (ESF), a Lichtenberg-Professorship (Volkswagen-Foundation), an ERC Consolidator Grant, and an Alexander von Humboldt Professorship (Alexander von Humboldt Foundation).
